

Elect **KEN** **PIMLOTT**
SUPERVISOR

"Sensible and responsible growth is the key for El Dorado County."

~ Ken Pimlott

Accountability, accessibility, sound fiscal management, and planning for the future are more important than ever as El Dorado County faces significant risk from wildfire, future economic downturn, rising infrastructure costs and pressure to grow beyond its means. I understand the issues and will build upon the efforts already being accomplished in District 2.

"Ken has the education, experience and background at the State level so he will understand El Dorado County's \$680 million budget and have the urgency to plan for the long-term financial sustainability of our County."

~ Shiva Frentzen, El Dorado County Supervisor, District II

PRESERVE OUR QUALITY OF LIFE.

SENSIBLE AND RESPONSIBLE GROWTH

I support responsible growth that doesn't place additional burden on roads and water supply. Local businesses, jobs and agriculture are the answer, not rezoning to build additional dense housing developments.

LONG-TERM BUDGET SUSTAINABILITY

I am committed to living within our means. We must continue to look for efficiencies, while maintaining and enhancing essential programs and services, especially for veterans, seniors and youth.

PREPARED FOR CATASTROPHIC WILDFIRE

Wildfire is a year-round threat. I will advocate for homeowners and business who are impacted by insurance cancellations and planned power outages. I support an ongoing coordinated effort to increase wildfire risk reduction investments.
